QUOTES

- "Leadership is an improvisational art. You may have an overarching vision, clear, orienting values, and even a strategic plan, but what you actually do from moment to moment cannot be scripted. To be effective, you must respond to what is happening." Martin Linsky
- "Success today requires the agility and drive to constantly rethink, reinvigorate, react, and reinvent" Bill Gates
- "Today's competitive environment is too fluid and organizational complexity too great to make the heroic leadership style effective. The focus can no longer be on a lone ranger to single-handedly solve all issues; it must be on the kind of leader who can cope with these various challenges as a team player, with an emphasis on leadership complementarity in decision-making and influencing people" Kets de Vries
